

SHOAIB RASOOL

Generative AI Engineer | LLM Systems | AI Agents | RAG | LangGraph | FastAPI

✉ shooaib6@gmail.com ☎ 03119599700 📍 Flat No B-01 F11 Islamabad

PROFESSIONAL SUMMARY

Generative AI Engineer with experience building **production-grade LLM applications, AI agents, Retrieval-Augmented Generation (RAG) systems, and intelligent automation platforms**. Experienced in LangGraph, LangChain, FastAPI, Qdrant, Gemini, GPT, and Claude. Built scalable AI systems for enterprise cybersecurity and no-code chatbot platforms, focusing on prompt engineering, orchestration, semantic search, performance optimization, and real-world business integrations. Passionate about designing reliable AI products that solve complex enterprise problems.

SKILLS

Core AI Skills — Python | FastAPI | LangChain | LangGraph | Prompt Engineering | LLM Applications | AI Agents | Multi-Agent Systems | Retrieval-Augmented Generation (RAG) | Semantic Search | Vector Databases | NLP | Transformers | Embeddings

LLMs — OpenAI GPT | Claude | Gemini | Llama

Vector Databases — Qdrant | Pinecone | FAISS

Backend — REST APIs | FastAPI | Node.js | Express

Cloud & DevOps — Docker | Firebase | Vercel

WORK EXPERIENCE

Anemoia

Artificial Intelligence Engineer

01/2026 – Present

Wah Cantonment,
Pakistan (On-site)

- Led AI development for **Sentrio**, a production SaaS security risk management platform serving enterprise cybersecurity workflows.
- Designed LangGraph-based multi-agent orchestration pipelines for complex reasoning and decision workflows.
- Built Retrieval-Augmented Generation (RAG) architecture using Qdrant and semantic retrieval.
- Developed FAIR Monte Carlo risk simulation pipelines for enterprise risk assessment.
- Built high-throughput LLM classification systems processing thousands of security alerts daily.
- Optimized LLM latency using semantic caching and intelligent retrieval strategies.
- Integrated Gemini models for classification, reasoning, summarization, and decision support.

- Improved scalability, monitoring, observability, and production reliability of AI services.
- Collaborated with backend engineers and product teams to deploy production AI features.

Cofttech.ai

Junior NLP Engineer

06/2025 – 12/2025

Islamabad, Pakistan

- Built production-ready no-code AI chatbot platform powered by LLMs.
- Designed complete RAG pipeline including ingestion, chunking, embeddings, indexing, retrieval, and response generation.
- Built scalable AI agents integrated with Slack, websites, and enterprise knowledge bases.
- Engineered prompt pipelines that improved response quality and reduced hallucinations.
- Developed FastAPI backend services for AI orchestration and chatbot management.
- Integrated vector databases for semantic retrieval and contextual search.
- Optimized AI performance, latency, and inference costs.

Booma Enterprises

Full Stack Developer

03/2024 – 05/2025

UK Remote

- Developed web and mobile applications using React, React Native, and Node.js
- Designed scalable frontend architecture and integrated backend APIs for real-world products

Enigma Software Solutions

React Developer

10/2022 – 02/2024

Islamabad-onsite

- Collaborated with a cross-functional development team to build and deliver scalable SaaS solutions for businesses using modern frontend technologies.
- Contributed to the development of an in-house Attendance Management System, focusing on creating responsive and user-friendly interfaces. Worked closely with teammates on client projects, participating in feature development, debugging, code reviews, and UI implementation while following industry best practices.
- Gained hands-on experience in React, Next JS, Vue JS, Redux, component-based architecture, state management, API integration, and agile team collaboration in a fast-paced development environment.

EDUCATION

Bachelor's Degree in Artificial Intelligence

Air University

09/2022 – 06/2026

Islamabad

Focused on AI, machine learning, Computer Vision NLP, and applied AI systems with hands-on experience in full-stack development, LLM integration, and real-world AI projects.
